Dear Dr. Diriba,

First of all I would like to convey my sincere greetings!!

In the previous years we have accessed seeds of many improved crop varieties and served the community. In this regard and many instances I would like to acknowledge EIAR.

For the 2014 cropping season, we still need seeds of some crop varieties and parental line Maize (Jibat) parents to produce F1 and serve the community. Thus, I have attached a seed request from Guder Mamo Mezemir Campus of Ambo university. Therefore, I kindly request your usual help and direct our request to your respective directorate or seed unit to offer us the required seed.

Kind regards,
